DevOps: CI/CD, Docker

Methodologies: Scrum, Agile Development

Others: REST APIs, SOLID/DRY principles, Database/Code optimization

Soft Skills

Adaptability, Communication, Team Management, Critical Thinking, Problem-Solving, Taking Projects from concept to completion, Accountability

Professional Experience

Senior Software Engineer

Curotec LLC, Philadelphia, PA, USA

September 2022 - Present

- Participating in code reviews to ensure coding standards are followed and identify areas for improvement.
- Iteratively added new features and resolved bugs in each sprint.
- Providing technical guidance and mentorship to junior developers.
- Proven ability to develop and implement creative solutions to complex problems.
- Assisting with day-to-day operations, working efficiently and productively with all team members.
- Using critical thinking to break down problems, evaluate solutions and make decisions.
- Improved UX in a project resulting in an increase in 30% user engagement.

Project Architect & Solution Expert

Pra-ella, Chicago, IL, USA

June 2019 - August 2022

- Resolved problems, improved operations and provided exceptional service.
- Developed and implemented performance improvement strategies and plans to promote continuous improvement.
- Led the deployment of client SaaS applications using AWS services such as EC2, ELK and RDS, ensuring scalable and reliable cloud infrastructure.
- Built and managed Docker containers to streamline the deployment process of Laravel applications, resulting in more efficient and consistent deployment pipelines.
- Collaborated with cross-functional teams to design and implement solutions that leverage cloud technologies and containerization for improved application performance and scalability.
- Improved operations through consistent hard work and dedication.
- Attended team meetings to resolve technical and project issues and review project schedules.
- Demonstrated leadership skills in managing projects from concept to completion.
- Completed comprehensive code compliance evaluations to scrutinize projects against established architectural criteria.
- Prepared API documentation using Swagger/Postman.

Senior Laravel Developer

Nestcode Infotech Pvt. Ltd., Surat, Gujarat, India

March 2016 - June 2019

- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Analyzed requirements and designed, developed, and implemented software applications for multiple websites.
- Reviewed code to validate structures, assess security and verify browser, device, and operating system compatibility.
- Troubleshoot technical issues in the production environment.
- Optimized APIs and web assets for speed and performance.

Education

Bachelor of Computer Application (BCA) in Web Development

Gujarat Technological University, Ahmedabad, Gujarat

January 2010 - March 2013

Certifications

Laravel Certification:
